## Current Projects

## Laneway Housing

Laneway houses create opportunities to increase the diversity of rental units in low density neighbourhoods by providing:

- An additional housing option beyond owning a house or renting a basement suite
- More opportunities to live in detached and ground-oriented rental housing
- Housing for diverse groups of people, including seniors ready to downsize, adult children who want to live independently, and renters who want to live in detached housing
- More opportunities for people to live in neighbourhoods across the city, close to their jobs, services, and frequent transit

## Features

- Improve property value
- Increase living space for family
- Privacy when living with more family
- Additional rental income
- Investment opportunity
